

Workshop COVID Policy

Masks are required to be worn by students, teachers, and other staff indoors, except when eating or drinking or when outside and social distanced. Masks must cover the nose and mouth fully. Students will not be allowed to participate in any workshop activities without masks. Any child who refuses to wear a mask will not be allowed to continue in the workshop.

Social Measures include keeping a minimum distance of three to six feet apart when indoors and outdoors. Instructors, students, and parents will observe these measures.

Temperature Checks will be conducted as part of standard check-in procedures for participants as they arrive at Confluence Park. If a participant's temperature is above 100.0 degrees Fahrenheit, the participant will not be allowed to continue past check-in and will be encouraged to return home or seek medical attention.

Hand sanitizer will be provided for all students and all surfaces will be wiped down with antibacterial wipes.

Procedures

- If a member of a student's family is awaiting a test result, we ask the student to refrain from attending any workshop sessions and suggest they seek out a COVID test.
- If a member of a student's family tests positive for COVID-19, the student will be required to be quarantined and will be allowed to return to Gemini Ink after receiving a negative COVID test.
- If a student tests positive, they cannot attend workshop sessions and must instead begin quarantine. A student is allowed to return to workshop sessions after showing proof of a negative COVID test.
- If a student or staff member is found to have been exposed to COVID-19, Gemini Ink asks that they seek out a COVID test as soon as possible even if symptoms are absent, isolate while awaiting results, and alert Gemini Ink of results as soon as possible.
- Gemini Ink must be alerted about any COVID cases or possible exposure within 1 day of knowledge. The contact person for this workshop is Florinda Flores-Brown, who can be reached at fbrown@geminiink.com
